

## A TINY HOUSE BIG KITCHEN

A BIG KITCHEN ISN'T  
JUST A LUXURY, IT'S THE  
HEART OF THE HOME

CREATIVE RENOVATION

# Kitchen Space

A larger kitchen the ability to add preparation sinks, refrigerator drawers, and additional cooking area is a way to make your kitchen more functional and useful.

To increase the interaction, consider the layout with open kitchen to the main gathering room, so that people can walk in and out. Islands are especially useful, as they provide more room for cooking and entertaining, with a bar providing extra room for guests to sit and chatting with friends. A large kitchen might also provide a walk-in pantry, room for a wine fridge, a butler's pantry, and more.

# 4 Factors to be Considered

## 1 Family Size

Family size is main factor for kitchen design and layout. Will everyone eat together at the same time? Do you want to be able to keep an eye on the children as you cook?

## 2 Time Spend

Today's kitchen is all about having space to cook, eat, entertain, gather as a family and relax. People is using dinner areas as a work place.

## 3 Kitchen Layouts & Style

The most wide-spread kitchen layouts represent the galley. Every layout can be characterised by its advantage and disadvantages. so it's important to choose a design that will work with your lifestyle.

## 4 Kitchen Appliances

The kitchen's primary function is for preparing and cooking meals. Choose appliances that fit your layout and style.

LIFESTYLE

# Your Style

For many households, the kitchen truly become the heart of the home and the family and social gatherings. Select the style that suits your tastes and lifestyle best.

The kitchen ideas are customised, which means you can select the dimensions of the kitchen and plan the kitchen layout with kitchen appliances to maximise the space. Most likely your kitchen will reflect your needs, personality and lifestyle, therefore, the kitchen setup is such a big investment you should be more attentive when your planning a new kitchen.

The kitchen layout and style, not just in the way it looks, but in how it feels when you use it.

At the end of the day your style will be your decision and you need to love it because you'll be living with your kitchen for at least 5-10 years.
